Mortgage Banker Process Flow

Net Funding Warehouse

Improper management of the Borrower's Escrow Funds for taxes and insurance is a Violation of Agency Requirements and a Violation of State Law

Escrow Liability must be recorded and Escrow Funds must be segregated

Caution to Mini-Correspondents

If you close a loan that is not purchased until the following month....

At month end you must report:

- Loans Held for Sale
- Borrower Escrow & Warehouse Liability

It is a violation of State Law and Agency Guideline to wait until the loan is purchased to record the accounting activity

This was OK as a Broker, but NOT as a Mini-Corr

Mortgage Accounting Hedge Activity

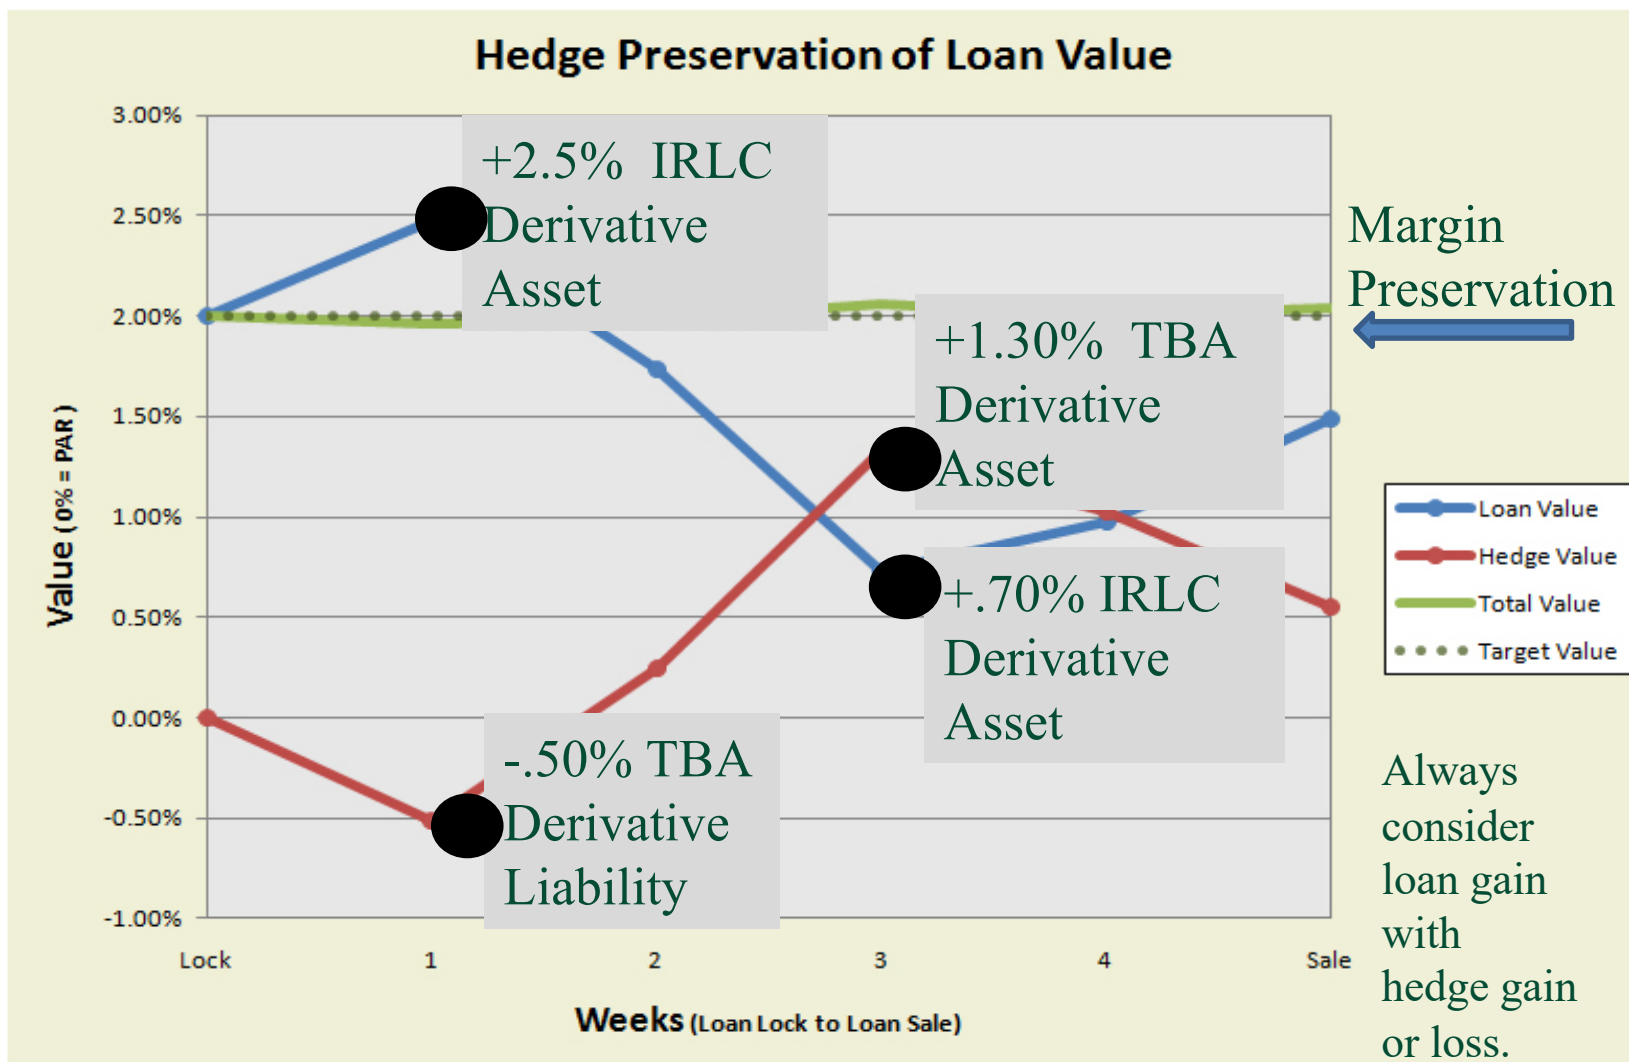

FASB Accounting Standards

ASC 815 – Derivatives

ASC 820 – Fair Value Measurement

ASC 825 – Fair Value Option

ASC 860 – MSR

Derivative Asset & Liability

- An Interest Rate Lock Commitment (IRLC) offered to a borrower is an off-balance sheet loan commitment subject to market risk and recorded at Fair Value
- ASC 815-25 requires consideration of Fair Value Measurement of the IRLC Locked Pipeline typically resulting in an increase in the Derivative Asset.
- TBA Short Position is either a Derivative Liability or Derivative Asset

Hedging Accounting is one of the most complicated areas of Mortgage Accounting

MBS can teach your Accounting Staff
how to properly account for
Hedging Transactions

MBS understands Hedge Accounting and offers Mortgage Bookkeeping* Services via the Cloud on a fee per loan basis

* MBS is not a CPA firm and does not provide attestation services
